### ***Lecture: Spiritual Space Clearing from the Inside Out*      *Friday, May 4 ~ 7:30—9:00 pm***

Modern-day mystic, Joey Korn brings new and unique understandings about Spiritual Space Clearing.

Are there really detrimental Earth energies and other kinds of energy in our living environments that can cause illness and other problems in our lives? Or, is it the other way around? Joey will demonstrate that we, as human beings, are at the core of changes in the subtle Life Force energies in our homes, that we affect them more than they affect us. The energies of the Earth, especially in our homes, constantly reflect us back to us, supporting us in everything we do in life, even the “harmful” things we do. If you balance all the people connected to the home with blessing, it usually balances all the natural energies in the home.

The more we understand about our intimate relationship with the energies of the Earth, the more we can take charge of the process to create and sustain ideal energy environments to support us in life, especially with the blessing process, what Joey considers the most powerful force that we have at our disposal.

### ***Workshop ~ Sat., May 5 10:00– 5:30 Space is limited...Register Below***

***Lecture & Workshop will be held at a Private Residence in San Anselmo***

Joey will teach you his system of dowsing & energy work that you can immediately apply into your life. **NO DOWSING EXPERIENCE NECESSARY.** We'll begin with the basics, using Joey's own techniques to find various kinds of detrimental subtle energies, including:

- Four different types of Earth energies
- Human-related energies
- Electrical fields around appliances (EMFs)

You will then learn to change any detrimental subtle energy fields that weaken you into beneficial energy that strengthens & nurtures you, including all of the above energy fields. Joey will share his “Kabbalah connection to dowsing.” He has found the kabbalistic Tree of Life in a tangible (dowseable) pattern of energies around every human being. You'll learn to dowse for energy problems in homes. You'll learn to correct those imbalances in several ways with Joey's Simple Blessing Process and especially his Three-Step Blessing Process. Joey will teach you about other levels of the Tree of Life he works with, making what he calls the Bed Pattern, the Room Pattern, the House Pattern, and Earth Energy grids that course the Earth. You'll experience an incredible, dynamic connection we each have with all of these Earth energies to help you create ideal energy environments to support what you most desire in life. As an added bonus, Joey will assess the energies in each participant's and tell you if you have significant energy problems that he can correct.

The Tree of Life  
in Kabbalah

## The Tree of Life and the Human Energy Pattern

Joey has found what he considers to be the human soul level of the Tree of Life in a pattern of energies around every human being, what he calls the Human Energy Pattern (HEP). We imprint it where we sleep as the Bed Pattern. This same pattern is around every room, around your home, and it repeats itself endlessly in the Energies of Creation. Imbalances in Human Energy Patterns are at the core of most energy problems in our homes. Joey finds that dowsing and working with this repeating pattern of energies is essential in doing effective and lasting space clearing in homes, businesses, and properties.

## What is Kabbalah and the Tree of Life?

Kabbalah is an oral teaching that has been handed down from teacher to student for thousands of years. It represents the essence of Jewish mysticism and has been adapted into many spiritual traditions, including Christianity, the religions of the East, and many Mystery Schools. The Tree of Life is the central feature of Kabbalah. Legend tells us that before God created the universe, our Creator put the Tree of Life into place as a pattern for everything else in Creation.
